January 1950 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps

Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcnd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps January.

January 1994 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcnd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps January.

Temp Anomaly (Deg F)
