

November 1950 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn2.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1951 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn2.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1952 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

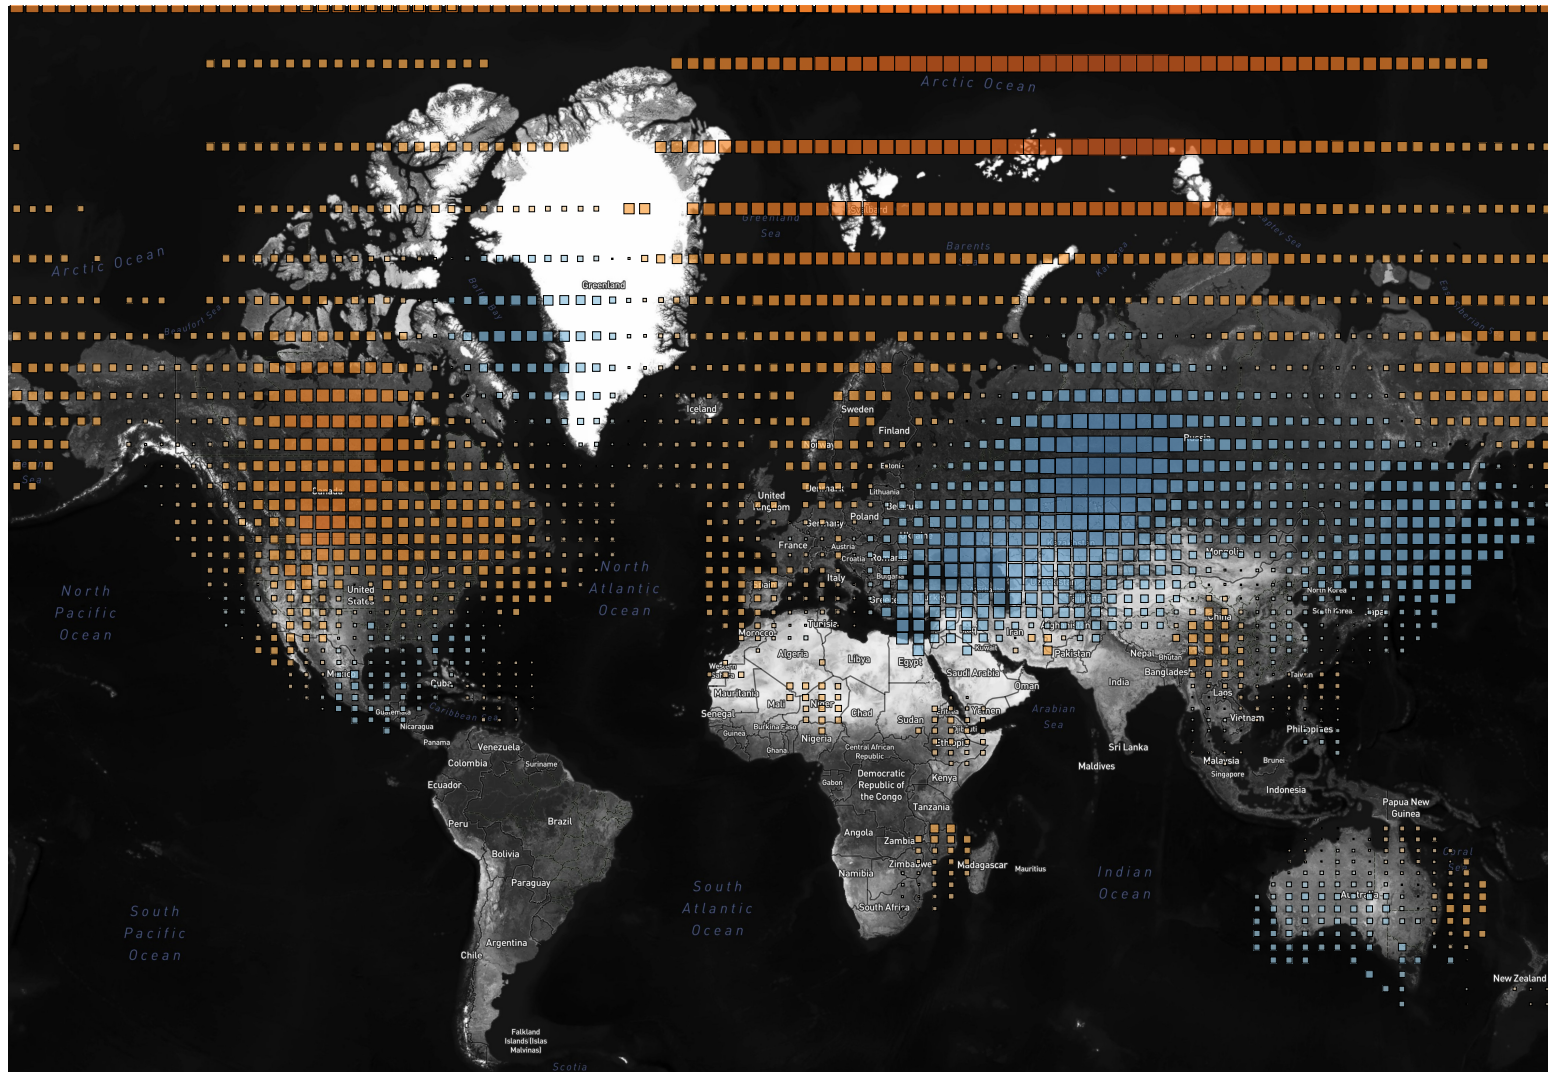

Temp Anomaly (Deg F)

Temp An..

November 1953 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1954 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1955 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn2.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1956 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1957 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1958 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1959 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1960 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1961 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1962 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1963 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1964 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1965 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1966 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

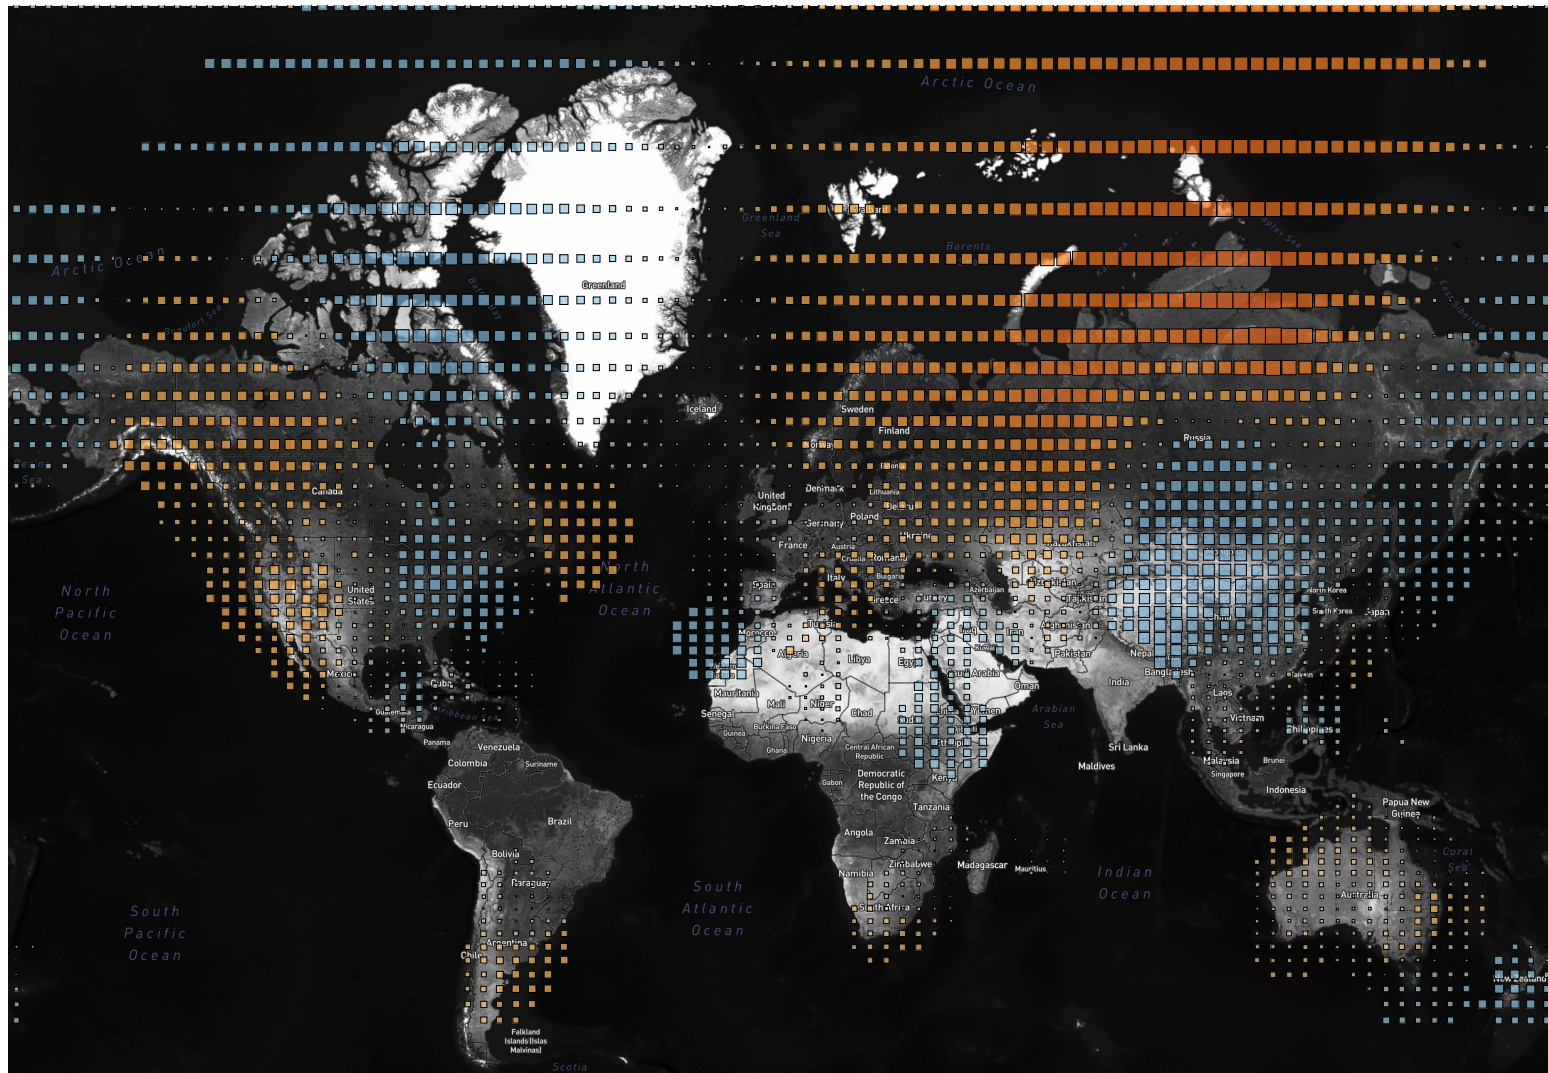

Temp Anomaly (Deg F)

Temp An..

November 1967 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1968 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1969 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1970 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1971 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1972 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1973 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1974 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn2.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1975 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1976 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1977 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1978 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1979 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1980 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn2.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1981 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1982 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1983 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1984 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1985 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1986 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1987 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1988 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1989 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1990 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1991 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1992 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1993 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1994 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

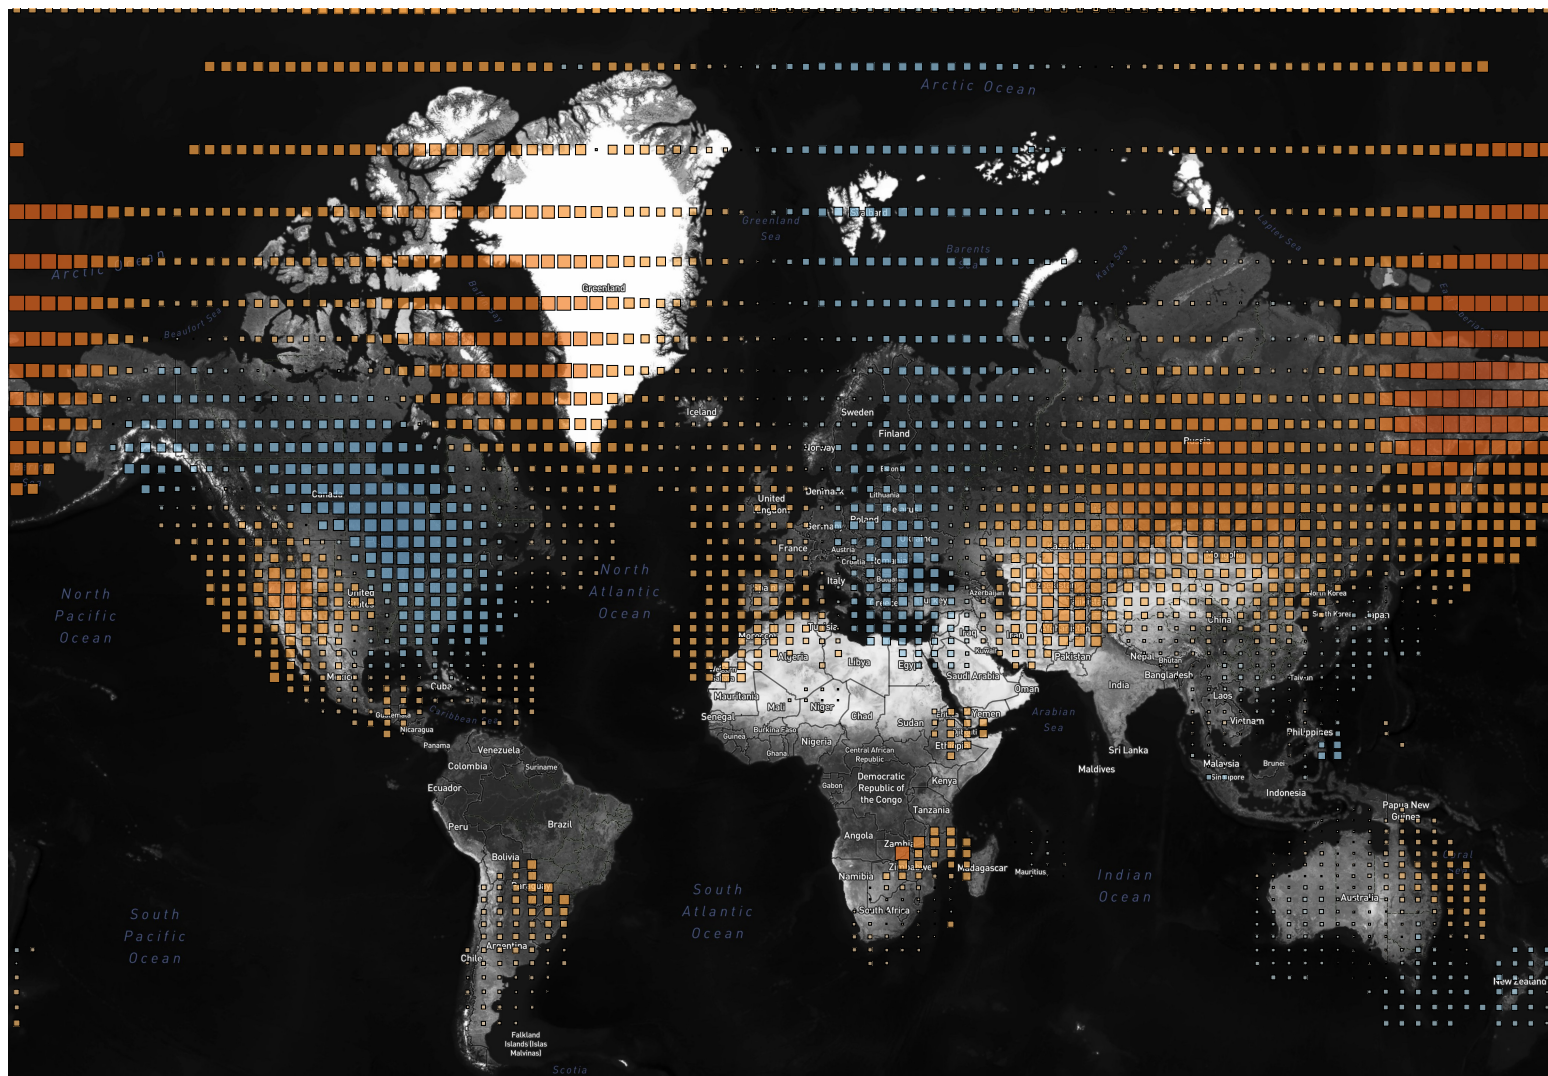

Temp Anomaly (Deg F)

Temp An..

November 1995 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1996 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1997 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1998 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 1999 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2000 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2001 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2002 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2003 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2004 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2005 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcn.d.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2006 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2007 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2008 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2009 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2010 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2011 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2012 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2013 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2014 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.

Temp Anomaly (Deg F)

Temp An..

November 2015 - Temperature Anomalies (Deg F) Calculated From Daily Max Temps
 Anomalies Calculated Relative to Baseline Period 1961-1990 (data source ghcmd.grid.tar.gz)

Map based on average of Longitude (centroid) and average of Latitude (centroid). Color shows average of Temp Anom (Deg F). Size shows average of Temp Anom (Deg F). Details are shown for Grid Box. The data is filtered on Date Month, which keeps November.
